

Warning

- 1 It is a high-precision product, do not fall or crash.
- 2 Do not expose the unit to strong magnetic objects, such as magnet and electrical motor. Avoid strong radio waves. Strong magnetic fields may cause the products breakdown or images and sounds damage.
- 3 Never leave the products exposed to high temperatures and direct sunlight.
- 4 Please choose branded Micro SD card. Neutral cards are not guaranteed to work normally.
- 5 Do not place Micro SD card near strong magnetic objects to avoid data loss.
- 6 In case of overheating, smoke, or unpleasant smell in the process of charging, unplug your device immediately to prevent fire hazard.
- 7 While it is charging, keep the product out of children's reach. Power line may cause children accidental suffocation or electric shock.
- 8 Keep the device in cool, dry and dust-proof places.

Preface

This product is a high-definition digital motion video recording device tailored to market demand. It has a variety of industry-leading features including digital video recording, photo shooting, audio recording, video display and detachable battery, which makes it perfect for vehicle data recording, photo-shooting, outdoor sports, home security, deep-water probing, etc., allowing you to film at anytime, anywhere. And it has a variety of patents.

Power Save	Off/1min/3min/5min
Operating System (OS)	Windows XP/VistaorAbove/Win7/Mac os
USB Interface	USB2.0
Power Source Interface	5V1A
Battery Capacity	1050MAH
Recording Time	1080P/ About 60 minutes
Charging Time	About 3hours

Note: Specifications could be subject to modification due to upgrading or updating.
Please regard the actual product as the standard form.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
